JAGUAR LAND ROVER CORPORATE ADVANTAGE

You have a choice. A choice, each morning, to put your best foot forward. And we don't mean in those colourful cartoon socks. To set your own standards. To decide what impression you leave on the world. You are the key to your own success.

In business, there's many ways to make a good first impression, but very few ways to make an excellent one. Take control of yours, and own it in a Jaguar or Land Rover. Take advantage of our corporate programme to receive superior offers and an experience like no other, for yourself and your business.

JAGUAR

Jaguar is the epitome of premium performance. The dynamic and distinctive range of vehicles that we have designed help you express the unique character of your business. Jaguar vehicles deliver the perfect blend of dynamic driving experiences, beautiful design and efficiency - characteristics that have become synonymous with the brand. This makes them ideal to the particular requirements of business users. Reduced CO₂ emissions and competitive Total Cost of Ownership (TCO) make these quintessentially British vehicles more compelling than ever before.

NEW JAGUAR XE

XE IS THE ENTRY SEDAN IN THE ICONIC JAGUAR BRAND.

- Lightweight Aluminium Architecture
- Ingenium engines delivering competitive CO₂ emissions from as low as 153g/km*
- State-of-the-art connectivity and entertainment with Jaguar’s Touch Pro 10” Touchscreen infotainment system and Smartphone Pack as standard
- A range of safety and convenience features such as Lane Keeping Assist, Front and Rear Parking Aids, Rear Camera and Emergency Braking as standard
- Electric leather seats and Premium LED headlights as standard
- 3 Years / 100,000 KM Warranty
- 5 Star ANCAP Rating

DERIVATIVE	ENGINE BADGE	ENGINE TYPE	NO. OF GEARS	DRIVING WHEELS	ENGINE POWER (kW)	ENGINE TORQUE (Nm)	FUEL ECONOMY COMBINED (L/100KM)*	CO2 COMBINED (G/KM)*
Jaguar XE - R-Dynamic SE	P300	2.0 I4 221kW Petrol	8-SPEED AUTOMATIC	2 (RWD)	221	400	6.7	153
Jaguar XE - R-Dynamic HSE	P300	2.0 I4 221kW Petrol	8-SPEED AUTOMATIC	2 (RWD)	221	400	6.7	153

*Fuel consumption and CO2 emission figures are determined by testing under standardised laboratory conditions with ADR 81/02 and ADR 79/04. These figures should only be used for the purpose of comparison amongst vehicles. Actual figures will generally differ under real world driving conditions and will vary depending on factors such as (but not limited to) driving style, vehicle's equipment and road, traffic and weather condition.

JAGUAR XF

XF BUILDS ON THE SUCCESS OF JAGUAR’S MOST AWARD-WINNING CAR EVER.

- Lightweight Aluminium Architecture for improved power-to-weight ratio
- Ingenium engines deliver highly competitive CO₂ emissions, from as low as 147g/km*
- State-of-the-art connectivity and entertainment with Jaguar’s Touch Pro 10” Touchscreen infotainment system, including optional WiFi connectivity for multiple devices
- A range of safety and convenience features such as Lane Departure Warning, Emergency Braking and Cruise Control with Speed Limiter as standard
- Generous dimensions of rear head and legroom add up to outstanding comfort for passengers
- 3 Years / 100,000 KM Warranty
- 5 Star ANCAP Rating

LAND ROVER

The perfect companion for adventurous spirits the world over, Land Rover has been going where others cannot for more than 70 years. Now it’s your turn to see the wild from the driving seat of one of these exceptionally capable vehicles. Equally at home on long motorway cruises, inner-city commutes and off-road adventures, every Land Rover vehicle is ready to make a statement. With reduced running costs and lower CO₂ emissions, owning a Land Rover has never looked so attractive.

*Fuel consumption and CO2 emission figures are determined by testing under standardised laboratory conditions with ADR 81/02 and ADR 79/04. These figures should only be used for the purpose of comparison amongst vehicles. Actual figures will generally differ under real world driving conditions and will vary depending on factors such as (but not limited to) driving style, vehicle's equipment and road, traffic and weather condition.

^Each grade available with R-Dynamic Pack

RANGE ROVER VELAR

THE ULTIMATE EXPRESSION OF SOPHISTICATION.

- Powerful and efficient Ingenium Petrol and Diesel engines with CO₂ emissions as low as 162g/km*
- Driving aids including Rear Camera and Front and Rear Parking Aids as standard
- Automatic LED headlights as standard
- Two Touch Pro Duo 10” Touchscreen infotainment system as standard
- All-Wheel Drive, Terrain Response and Adaptive Dynamics delivers outstanding on-road and off-road capability
- Flush Exterior Door Handles and Keyless Entry
- 40:20:40 Split Fold Rear Seat with 673 litres of loadspace
- 3 Years / 100,000 KM Warranty
- 5 Star ANCAP Rating

ELECTRIFICATION & THE FUTURE

Jaguar Land Rover is fully committed to an electrified future. By 2020, all new Jaguar Land Rover models will be offered with an electrified powertrain. The multi-award winning, all-electric Jaguar I-PACE SUV is available to order now. We also offer the Range Rover and Range Rover Sport as Plug-In Hybrid Electric Vehicles (PHEVs). In addition, we have just launched the new Range Rover Evoque and new Discovery Sport which features Mild Hybrid technology in all automatic variants, and both models will also become available as PHEVs in the second half of 2019.

These electrified vehicles represent a compelling offering for your fleet. Each offer a unique, refined electrified driving experience, helping you to achieve your environmental ambitions.

And it’s not just on the road. Our battery and electric powertrain technology has been proven and refined through our years of experience racing in Formula E, the world’s premier electric racing series. Since 2018, we’ve taken this to the next level with the launch of the Jaguar I-PACE eTrophy, a high-speed race series showcasing I-PACE.

A CHOICE OF INNOVATIVE POWERTRAINS FOR YOUR BUSINESS

Looking to the future, we've developed a range of powertrains that significantly reduce vehicle emissions and improve fuel economy yet maintain exhilarating performance and the all-terrain capability that Jaguar and Land Rover vehicles, respectively, are synonymous with.

Whatever your requirements, our combined portfolio offers a versatile range of vehicles for your business. Our online tool will help you select the ideal model and powertrain to suit your needs.

> [EXPLORE OUR VEHICLES](#)

*The figures provided are as a result of official manufacturer's tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted.

**Charging times will vary by market, power supply and charging solution.

†Available later in 2019 as a Plug-In Hybrid Electric Vehicle (PHEV).

††Only available on New Range Rover Evoque, New Discovery Sport and New Land Rover Defender. Automatic Transmission only. Market dependent.

BATTERY ELECTRIC VEHICLES

Battery Electric Vehicles (BEVs) are powered solely by an electric motor and a high capacity battery to deliver high performance with zero tailpipe emissions.

AVAILABLE JAGUAR MODELS:

- I-PACE

BENEFITS:

- Outstanding efficiency delivered by a high-tech Lithium-ion battery and advanced electric motors
- Zero tailpipe emissions
- A range of 292 miles (470km)*
- Instant and exhilarating acceleration, 400PS and 696Nm of torque

PLUG-IN HYBRID ELECTRIC VEHICLES

Plug-in Hybrid Electric Vehicles (PHEVs) combine a lightweight conventional engine, together with an electric motor and a high capacity battery which is charged via an external source.

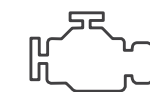

AVAILABLE LAND ROVER MODELS:

- Range Rover Sport P400e
- Range Rover P400e

BENEFITS:

- Ultra low CO₂ emissions
- 13kWh high voltage battery
- 7kW On-Board Charger
- Combined output of 404PS
- A full charge can be achieved in as little as 2.75 hours**

INGENIUM PETROL AND NEW DIESEL

Our unparalleled expertise in developing engines with cutting-edge performance and economy has led to the creation of the most advanced Ingenium engines. These all-aluminium engines maximise performance and environmental sustainability at the same time as driving down running costs.

Ingenium engines are also available with Mild Hybrid Electric Vehicle (MHEV) technology††. This system uses energy normally lost during deceleration to intelligently maximise engine efficiency, plus a Stop/Start system to shut down the engine while the vehicle decelerates.

AVAILABLE JAGUAR MODELS:

- New XE
- XF
- XF Sportbrake
- E-PACE
- F-PACE
- F-TYPE

AVAILABLE LAND ROVER MODELS:

- New Discovery Sport
- Discovery
- New Range Rover Evoque
- Range Rover Velar
- Range Rover Sport
- Range Rover
- New Land Rover Defender

BENEFITS:

- Lower CO₂ and Nitrogen Oxide emissions
- Reduced weight for enhanced performance
- Impressive torque for quicker acceleration
- Intelligent Start/Stop technology for improved efficiency
